THE BUCKROE BEACH FENCE

A Decision Which Shuts Out the Hampton Roads Railway.

THE VINETA UNDER ORDERS

An Interesting Point Raised on Behalf of the Athletic Club, Fined for Illegal Selling.

(Special to The Times-Dispatch.)

NEWPORT NEWS, VA., July 9.—The famous Buckroe Beach fence case came up again in the Elizabeth City Circuit Court, when J. V. Bickford, lesses of the Huckroe Beach Hotel, applied to Judge Blackstone for an injunction requiring the Newport News and Old Point Railway and Electric Company to throw down the fence, about which all the controvery has raged. In view of the iact that the company had removed the obstruction to the public road, complained of in a previous fight, Judge Blackstone held that there was no reason why it should not maintain a fence around its property at Buckroe Beach and refused to grant the order. It is scure the removal of the fence around Buckroe Beach. It is generally understood that Mr. Blckford's suit was entered in interest of the Hampton Roads Italiway, whose passengers now are required to pay an admission fee to enter the pavillon at the beach.

INTERESTING POINT.

An interesting point has been raised by Fay 8. Collier, attorney for the Virginia Athletic Club, which recently was fined \$750 for seiling liquor without a license. By special act of the General Assembly Newport News has been given police jurisdiction within a mile of the city limits. The Virginia Athletic Club is located just across the city lime in Elizabeth City county. Collier claims that the jurisdiction does not extend to a different county from the one in which

"I can recommend Peruna for dyspepsia and stomach. I have been using your medicine for a short period and I feel very much relieved. It is indeed a wonderful medicine besides a good tonic."—M. C. Butler.

The only rational way to cure dyspepsia is to remove the catarrh. Peruna has won its way into thousands of homes and millions of hearts by its marvelous cures of catarrhal affections. Peruna does not produce artificial digestion. It cures catarrh and leaves the stomach to perform digestion in a natural way. This is vastificial methods.

Peruna has cured more cases of dyspepsia than all other remedies combined, simply because it cures catarrh wherever located. If catarrh is located in the head. Peruna cures it. If catarrh has fastened itself, in the threet or hongelist thas

LEADING PLANKS OF TWO PARTIES PARALLELED COMMENT ON

DEMOCRATIC.

TARIFF.—The Democratic party has been and, will continue to be the consistent opponent of that class of tariff legislation by which certain interests have been permitted through Congressional favor, to draw a heavy tribute from the American people. This monstrous perversion of those equal opportunities which our political institutions were established to secure has caused what may once have been infant industries to become the greatest combinations of capital that the world has ever known. These especial favorities of the government have, through trust methods, been converted into monopolies, thus bringing to an end domestic competition, which was the only alleged check upon the excompetition, which was the only alleged check upon the ex-travagant profits made possible by the protective system. These industrial combinations, by the financial assistance they can give, now control the policy of the Republican

party.

We denounce protection as a robbery of the many to enrich the few, and we favor a tariff limited to the needs of
the government, economically administered, and so levied
as not to discriminate against any industry, class or section, to the end that the burdens of taxation shall be distribut-

ed as equally as possible.

We favor a revision and a gradual reduction of the tariff by the friends of the masses and for the commonweal, and not by the friends of its abuses, its extortions and its discriminations, keeping in view the ultimate ends of "equality of burdens and equality of opportunities" and the constitution of purpose of raising a revenue by taxation—to wit, tutional purpose of raising a revenue by taxation—to wit, the support of the Federal government in all its integrity and virility, but in simplicity.

TRUSTS.—We recognize that the gigantic trusts and combinations designed to enable capital to secure more than its just share of the joint products of capital and labor, and which have been fostered and promoted under Republican rule, are a menace to beneficial competition and an ob-stacle to permanent business prosperity. A private mon-

stacle to permanent unified property of opports in indefensible and intolerable.

Individual equality of opportunity and free competition are essential to a healthy and permanent commercial prosperity, and any trust, combination or monopoly tending to destroy these by controlling production, restricting competing the competition of th tition or fixing prices, should be prohibited and punished by iaw. We especially denounce rebates and discrimination by transportation companies as the most potent agency in promoting and strengthening these unlawful conspiracies

Any trust or unlawful combination engaged in interstate commerce which is monopolizing any branch of business or production should not be permitted to transact business out. side of the State of its origin. Whenever it shall lished in any court of competent jurisdiction that such mon-opolization exists, such prohibition should be enforced through comprehensive laws to be enacted on the subject.

THE PHILIPPINES .-- We insist that we ought to do for the Filipinos what we have done already for the Cubans, and it is our duty to make that promise now, and upon suitable guarantees of protection to citizens of our dwn and other countries resident there at the time of our withdrawal; set the Filipino people upon their feet, free and independent to work out their own destiny.

NEGRO PROBLEM.—The race question has brought counties wees to this country. The calm wisdom of the American people should see to it that it brings no more. To revive the dead and hatoful race and sectional ar in any part of our common country means confusion, dis-traction of business and the reopening of wounds now hap-pily healed. North, South, East and West have but recent-ity stood together in line of battle from the walls of Pekin to the hills of Santiago and as sharers of a common glory and a common destiny we should share fraternally the common

burdens. We therefore deprecate and condemn the bourbonlike, selfish and narrow spirit of the recent Republican Convention at Chicago, which sought to kindle arew the ambers of racial and sectional strife, and we appeal from it to the sober common sense and patriotic spirit of the American

MERCHANT MARINE.—We denounce the Ship Subaidy bill recently passed by the United States Senate as an integuitous appropriation of public funds for private purposes, and a wasteful, lilegical and useless attempt to overcome by subaidy the obstructions raised by Republican legislation to the growth and development of American commerce on the sea.

REPUBLICAN.

TARIFF:—Protection which guards and develops our in-dustries is a cardinal policy of the Republican party. The measure of protection should always at least equal the dif-ference in the cost of production at home and abroad. We insist upon the maintenance of the principles of protection, insist upon the maintenance of the principles of protection, and therefore rates of duty should be readjusted only when conditions have so changed that the public interest demands their alteration, but this work cannot safely be committed to any other hands than those of the Republican party. To intrust it to the Democratic party, it to invite disaster. Whether, as in 1892, the Democratic party declares the protective tariff unconstitutional, or whether it demands the protective tariff unconstitutional, or whether it demands the second of the protective tariff unconstitutional. tariff reform or tariff revision, its real object is always the destruction of the protective system. A Democratic tariff has always been followed by business adversity; a Repub-

lican tariff by business prosperity.

MONEY,-We believe It to be the duty of the Republican party to uphold the gold standard and the integrity and value of our national currency. The maintenance of the gold standard, established by the Republican party, cannot safely be committed to the Democratic party, which resisted its adoption and has never given any proof since that time of belief in it or fidelity to it.

TRUSTS.—Laws enacted by the Republican party, which the Democratic party failed to enforce, and which were in-tended for the protection of the public against the unjust discrimination or the illegal encroachment of vast aggregations of capital, have been fearlessly enforced by Republican President, and new laws insuring reasonable pu licity as to the operations of great corporations and provid diltional remedies for the prevention of discrimination In freight rates have been passed by a Republican Congress.

NEGRO PROBLEM.-We favor such Congressional action as shall determine whether by special discriminations the elective franchise in any State has been unconstitutionally limited, and if such is the case we demand that representation in Congress and in the Electoral College shall be proreduced, as directed by the constitution of the

THE PHILIPPINES.—In the Philippines we have suppressed insurrection, established order and given to life and property a security never known there before. We have organized civil government, made it effective and strong in administration and have conferred upon the people of those islands the largest civil liberty they have ever enjoyed.

CAPITAL AND LABOR .- Combinations of capital and of labor are the results of the economic movement of the age. but neither must be permitted to infringe upon the rights and interests of the people. Such combinations, when law-fully formed for lawful purposes, are alike entitled to the protection of the laws, but both are subject to the laws, and neither can be permitted to break them.

MERCHANT MARINE.—While every other industry has prospered under the fostering aid of Republican legislation, American shipping, engaged in foreign trade in competition with the low cost of construction, low wages and heavy aubaidles of foreign governments, has not for many, years re-ceived from the government of the United States adequate encouragement of any kind. We, therefore, favor legislation which will encourage and build up the American merchant marine, and we cordially approve the legislation of the last Congress, which created the Merchant Marine Commission to invetsigate and report upon this subject.

ISTHMIAN CANAL .- The possession of a route for an isthmian canal, so long the dream of American statesman-ship, is now an accomplished fact. The great work of con-necting the Pacific and Atlantic by a canal is at last begun, and it is due to the Republican party.

PENSIONS.—We are always mindful of the country's debt to the soldlers and sallors of the United States, and we be-lieve in making ample provision for them and in the liberal administration of the pension laws.

All the evening, and up to long after midnight, the telephone in the editorial rooms of The Times-Dispatch was kept constantly busy with inquiries as to the effect of Parker's telegram and the action of the convention, after it had been made known. The bells were kept ringing almost continuously, and the greatest interest was manifested by thousands of citizens.

Interest in the Platform.

Even before the startling telegram of Judge Parker was made known here, there was widespread discussion and unithere was widespread discussion and universal interest in the platform adopted by the convention. Many expressions were heard as to the silence of the convention on the currency issue, which cut such a prominent figure in the Kansas C:ty and Chicago platforms of 1900 and 1806. The majority, perhaps, were outspoken in characterizing the convention's action as a mistake, many calling it a fatal blunder. Quite a respectable minority, however, took the ground that it was the wisest thing to he done in view of the complete reversal of the party position since 1900, and that it would have been too radical a step to have completely been too radical a step to have completely about-faced on this important issue. The latter element contend that the silence of the convention on this subject is tan-tamount to an abandonment of the silver issue, but that to have frankly stated issue, but that to have frankly stated its change of attitude on the currency could have accomplished no good, and might have allenated a large and influ-ontial element. The silence on this issue was a concession for the sake of har-

mony.

Some Expressions on Platform.
Here are some expressions from local Democrats on the platform, gathered before Judge Parker's telegram, defining his position and views on the currency, became known. One or more of those seen deprecated the failure of the convention to make a ringing declaration for tariff reform.

Mr. James W. Gordon: "I really have not read it carefully. From my reading of it, however, it appears to have the weaknesses of all compromises. In all tempting to unify all factions strength is generally sacrificed in a political platform. It shows compromises all through. It think it was a mistake to omit a money plank. The convention ought to recognize existing conditions, and face them existing conditions, and face them

fearlessly.
"I would have preferred to see Mr. Cleveland nominated. In my view, he has more cohessiveness about him than any other man in the party. I fear he is the only man who could be elected by the Democrats."

Thinks the Convention Erred. State Senator A. C. Harman: "It looks to me like a straddle, and that success in the campaign all depends upon what Mr. Parker says in his speech of acceptance. I think the convention erred in omitting a money plank. We should have had a trank declaration on the currency." Delegate E. B. Thomason: "I have not

trank declaration on the currency."

Delegate E. B. Thomason: "I have not read it very carefully, but it seems to me the platform is something we can all stand on this time. I would like to have seen a declaration on the money question. I suppose the convention thought that it was a question already settled, and that it was therefore unnecessary to go into it further.

"In my opinion, Parker is the strongest candidate we could nut up, except, possibly, Cleveland, who could have drawn more strength in the North and East than any other man. Of course, the South would support any candidate the party might name."

Hon, lease Discs. "I think silvar is a

dead issue, but it would look like a backdown for the party to change its base
entirely, and that what they did was perhaps the most sensible and proper thing
to be done. The remainder of the platform meets with my approval. The peaple are satisfied that we are not going
to raise the money issue of 1896 and 1990,
and that the question is settled. The insertion of a gold plank in the platform
would have offended many men all over
the country. The convention perhaps did
what was best."

what was best."

Weak Tariff Declaration.

Hon, Samuel Li Kelley: "In my opinion the money against the weak declaration on the tariff, I am not prepared to say that the convention erred in omiting a currency plank. The Resolutions Committee was composed of the ablest and wisest men in the party and it was adopted after careful consideration. I am and have all-ways been an advocate of the gold standard, in the face of the stand taken in the platform of 1900. I do think the committee and the convention erred in not inserting in the platform an explicit, vigorous and even ringing pronouncement for tariff reform. It was on this issue that the only two presidential elections carried by the party since the war were worm, and it is an issue that should have been word to the front at this time."

Hon. Thomas W. Gardner: "I have not read carefully the platform as finally agreed upon by the convention, I am inclined to think that the convention acted wisely in not making a declaration on the money question. The failure to reletrate the free silver declarations of the gold standard might have allenated many men who have been affiliating with the party. On the whole, I think the platform is perhaps the best that could have been done."
